

RECOMMENDATIONS FOR THE PREVENTION OF INJURIES

EVERY ATHLETE MUST HAVE A PRE-PARTICIPATION MEDICAL EXAMINATION.

Anyone involved in training athletes should **EMPHASIZE PROPER, GRADUAL, AND COMPLETE PHYSICAL CONDITIONING.**

Strive to have an athletic trainer who is a regular member of the faculty and is adequately prepared and qualified.

Have a **WRITTEN EMERGENCY PLAN** to deal with the possibility of catastrophic injuries.

Schools should **EMPLOY ONLY WELL TRAINED ATHLETIC PERSONNEL, PROVIDE THE BEST FACILITIES AND SAFEST EQUIPMENT POSSIBLE.**

Coaches and officials **MUST STRICTLY ENFORCE GAME RULES AND ADMINISTRATIVE REGULATIONS** related to safety.

Coaches **MUST TEACH PROPER FUNDAMENTAL SKILLS OF THE SPORT.**

ANY PLAYER WHO HAS EXPERIENCED, OR SHOWN SIGNS, OF HEAD TRAUMA (*loss of consciousness, visual disturbances, headache, inability to walk correctly, obvious disorientation, memory loss*) **SHOULD RECEIVE IMMEDIATE MEDICAL ATTENTION AND SHOULD NOT BE ALLOWED TO RETURN TO PRACTICE OR COMPETITION WITHOUT PERMISSION FROM THE PROPER MEDICAL AUTHORITIES.**

ATHLETES AND THEIR PARENTS SHOULD BE WARNED OF THE RISKS OF INJURY.
